🐙 github.com/dapengliamy 🌐 dapengliamy.github.io

US Permanent Resident. Experience in machine learning, deep learning, natural language processing.
Seeking a full-time job or internship in Software Engineering.

EDUCATION **Oregon State University, School of EECS**

M.S. Student in Computer Science (AI Group) GPA: 4.0/4.0 *Sep. 2015 – June 2017*

Full Scholarship with Teaching Assistantship

CS 534: Machine Learning	CS 519: Deep Learning
CS 540: Database Management Systems	CS 533: Reinforcement Learning
CS 550: Introduction to Computer Graphics	CS 515: Algorithms and Data Structures
CS 572: Computer Architecture	CS 516: Theory of Computation
CS 290: Web Development	CS 496: Mobile & Cloud Software Development

City University of New York, Non-Degree Student in Computer Science, GPA: 4.0 *July 2015*

USC Keck School of Medicine M.S., Molecular Microbiology & Immunology *May 2012*

Qingdao University, Medical College B.S., Clinical Medicine *July 2010*

COMPUTER
SKILLS

- *Languages:* Python, Java, C/C++, L^AT_EX, Haskell, SQL, Prolog, JavaScript, HTML/CSS
- *Toolkits:* scikit-learn, pytorch, Keras, OpenGL, Hadoop, MySQL, MongoDB, Django, NLTK
- *Other:* Linux/Unix (Shell script), Mac OS X, Windows, Git

RESEARCH
PROJECTS

- 🐙 **Machine Learning:** [Kaggle competition](#) “What’s cooking?” *Fall 2015*
 - Multiclass classification (**scikit-learn**) enhanced by word embeddings (**word2vec**);
 - Hierarchical clustering of cuisines with Ward linkage
 - Dimensionality reduction using PCA: project all cuisines onto two dimensions
- 🐙 **Deep Learning for Natural Language Processing:** Neural Translation *Winter 2016*
 - Used **pytorch**-based seq2seq encoder-decoder (**OpenNMT-py**) for machine translation
 - Used byte pair encoding (BPE) to reduce vocabulary size
 - Trained on 100k Chinese-English sentence pairs, and got 29.0 BLEU score on NIST 02.
- 🐙 **Database Management Systems:** housing price prediction using data crawled from craigslist.org for Corvallis area. *Winter 2017*
 - Collected data by crawling the Web using **Scrapy**
 - Stored and queried the data using **MySQL**
 - Trained two regression models (linear and neural) to predict price (**scikit-learn**)
- 🐙 **Computer Graphics:** animated 3D scene of the solar system using OpenGL. *Fall 2016*

TEACHING
EXPERIENCE

CS 344, Operating Systems I (Spring 16, Fall 16, Winter 17);
CS 325, Algorithms (Winter/Summer 16, Spring 17); **CS 261, Data Structures** (Fall 15).
